With this idea of helping humanity because we believe it is right, because we think after justice, we shall come to the point where there shall be an enthusiasm unbounded, and with enthusiasm unbounded, there is always ultimate success.'"

HOLY LAND SCHOOLS

Need of Higher Instruction Is Very Great but British Are Making Improvement.

JERUSALEM, Nov. 1.—The British government, which has a mandate over Palestine, has undertaken a plan to place a school within the reach of every child in Palestine. It hopes to accomplish this within a few years.

The purpose is to establish 50 new schools each year, to be distributed throughout Palestine as the need is greatest. Already hundreds of children are receiving for the first time the benefit of an education.

Before the war, Jerusalem, then a city of some 50,000 inhabitants, could not boast of a single government high school. Even now 70 persons out of every 100 do not know how to read and write.

The path of educational development in Palestine contains one great stumbling block, the lack of co-operation and unity among the different elements of population. The government schools today are attended only by Mohammedans.

Money Is Lacking.
There is great need for institutions of higher education. At present, there is not a college in the entire state of 1,000,000 inhabitants. The American university of Beirut, Syria, is the only place open to Palestinians seeking higher education.

The authorities recognize this lack of educational opportunity but find themselves helpless to remedy it owing to the inability to obtain funds.

There has been a great deal of talk in recent years about establishing a Hebrew university in Jerusalem. Its plans have been drawn and the corner stone has been laid but the money to build it has not been secured and it remains in the realm of things yet to be.

SIMPLE WAY TO GET RID OF BLACKHEADS
There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.

To do this get two ounces of calomel powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the face and you will be surprised how the blackheads have disappeared. No matter when they are simply dissolve and disappear, leaving the face without any mark whatever. Blackheads are simply a mixture of dirt and dirt and secretions from the pores of the face in the pores of the skin. Rubbing and squeezing only cause irritation, make large pores and do not get them out after they become hard. The calomel powder and the water simply dissolve the blackheads so they walk right out, leaving the pores free and clean and in their normal condition. Anyone troubled with these unsightly blemishes should certainly try this simple method—now.
